SKIN

COLLAGEN BOOSTING LIGHT THERAPY FACIAL 90 MINUTES

Infrared light penetrates deep into the skin to increase collagen and elastin production, reducing fine lines and wrinkles. As an alternative to IPL Photofacial treatments, this pain-less, non-invasive treatment works to even out skin tone by erasing age spots, blemishes, and sun damage resulting in an overall healthier and younger appearance.

CARBOXYGENATION LUMINOSITY FACIAL 60 MINS/90 MINS

This skin treatment works to enhance your natural beauty, designed to make the skin look brighter, firmer and visibly rejuvenated using unique organic ingredients all while promoting a sense of deep relaxation. Suitable for all skin types – even the most sensitive and demanding ones. Carboxygenation is a natural, internal oxygen treatment that uses a special organic aromatic powder blend that activates on the skin to create a safe, temporary topical suffocation to the top layer of the skin, sending more oxygen and its healing benefits to its surface. This European method of increasing blood supply and circulation to the epidermis leaves the skin looking glass-like, plump and radiant.

VOLCANIC GLASS FIRM & DETOXIFY FACIAL 60 MINUTES

This powerful detoxifying treatment uses Volcanic Glass and Activated Carbon to decrease sensitivity of the skin and eliminate topical and environmental impurities, while soothing, firming and nourishing the skin.

DEEP CLEANSING BLUE LIGHT THERAPY ACNE FACIAL 60 MINUTES

LED light therapy is a painless, relaxing, non-invasive skin-care treatment that has many benefits—particularly treating mild to moderate acne and stimulating collagen. Blue light kills the acne-causing bacteria below the surface of the skin that can cause inflammation. Achieve not only great skin, but also significant self-confidence with a healthier complexion that has fewer acne lesions, decreased redness and scarring.

VOLCANIC GLASS AWAKENING EYE CONTOUR 30 MINUTES/60 MINUTES

After cleansing and exfoliating, a three-step massage is performed focusing on relaxation, under-eye crescents and wrinkles. The massage is followed by a revitalizing Volcanic Glass 'sleep mask' that is applied over the eye contour to provide a soothing and firming effect while reducing the appearance of fatigue and stressed skin. As this mask dries and binds to the skin, it tightens pores while providing a lifting effect to the skin and facial contour.

LESS IS BEAUTY MINI FACIAL 30 MINUTES

A soft grain-free gommage exfoliation uncovers smooth and silky skin in just three phases: a non-chemical protein peel awakens dull skin, a gentle polish rejuvenates the appearance, and an organic olive oil serum leaves the skin remarkably soft to the touch. The result is a visibly brighter, more refined and even complexion.
